EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a) in the specification, on page 1, line 6, after "serial number" adding --10/705,368--,
 - b) in the specification, on page 1, line 9, before "). Patent" adding --10/705,524--, and
 - c) in the specification, on page 1, line 11, after "in the UPSTO on" adding --November 10, 2003--.
2. The following is an examiner's statement of reasons for allowance: regarding claim 1, the primary reason for the allowance of the claim is due to arguments presented by the applicants on page 4, 1st and last paragraphs, in regards to the limitation of a chip handler means. The claimed states: "...a chip handler means, for automatically moving said IC-modules into and out of said sockets..." The applicants argue that the handler means are being done manually rather than operating automatically as claimed. After reviewing Friedrich et al, the examiner agrees with the arguments by the applicants. Since claims 2-12 depend from claim 1, they also have allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
